Professional Summary

B.Tech CSE final-year undergrad and Full-Stack Developer with hands-on expertise in building scalable MERN applications and Python-driven intelligent features. Passionate about transforming complex product ideas into high-performance, user-centric web platforms.

Technical Skills

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React.js, Next.js, Vite, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, REST APIs, JWT, bcryptjs
- **Databases & Cloud:** MongoDB, Mongoose, Cloudinary
- **AI / ML & Libraries:** TensorFlow, Keras, OpenCV, Scikit-learn, NumPy, Joblib
- **Tools:** Git, GitHub, Postman, Vercel, Docker

Projects

Nidaan AI | Full-Stack AI Healthcare Platform (React, Node, Express, MongoDB, Python, TensorFlow, Keras)

([Live Demo](#) | [GitHub Repo](#))

- Developed an end-to-end healthcare platform integrating tabular and medical-image classification pipelines for predicting Heart Disease, Diabetes, Breast Cancer, and Lung Cancer.
- Built robust Python-based ML/DL inference services and connected them seamlessly with a production-ready React frontend and Node.js/Express backend architecture.
- Implemented secure user authentication (JWT, bcryptjs) and optimized data/image handling workflows using Multer and Cloudinary cloud storage.

KrishiBazar | Agri-Commerce D2C Marketplace Platform (React, Redux, Node.js, Express, MongoDB)

([Live Demo](#) | [GitHub Repo](#))

- Engineered a full-stack D2C e-commerce platform bridging farmers and consumers to streamline product listing, real-time browsing, and direct order fulfillment.
- Integrated secure role-based access control (RBAC) and JWT authentication, alongside dedicated vendor profiles and direct messaging systems.
- Developed a feature-rich admin dashboard for efficient user management, product monitoring, and end-to-end data workflow oversight.

Experience

Unified Mentor Pvt. Ltd. (Cyber City, Noida)

Jun 2026 - Sep 2026

Full-Stack Developer Intern

- Designed and developed 'Nivasa' from scratch, a full-stack interior design platform featuring advanced filter-search, dynamic portfolios, and a seamless designer booking workflow.
- Built multi-role dashboards (User, Admin, Designer) using the MERN stack to manage 3+ distinct user workflows and administrative operations.
- Delivered scalable RESTful APIs and optimized MongoDB schemas, ensuring high-performance frontend-backend integration.

Education

Uttarakhand Technical University, Dehradun

2023–2027

B.Tech, Computer Science & Engineering – GPA: 7.72
